Principal Message

I thank god to for his grace which enable us to render the magnificent service in 22nd year in Motipur. As far as education is concerned it is a wonderful service. As according to me I found that the education has three realms. They are physical, mental, and spiritual education. What is really education means? It means impart the systematic instructions or knowledge in any subject. We want impart the knowledge in a systematic way. The first part is the physical education. It is very important because a healthy body can do anything which is the mind and the sprit inspire. Through physical education we prepare a healthy and fit body to work well and through mental education we learn everything in the physical world and its secret technical known how, methods, clues and formulas to solve any puzzled problems.

Mathematical skills, linguistically knowledge and everything which we see today. This make us to live in the face of the earth as like kings and queens.

But the third realm of education enabling us to know the creator(God) and all moral values of life. The virtues like love, sympathy, compassion, tolerance, and brotherhood. It adorn the man with the two other realms and make a man perfect and humble to serve humanity like Mother Teresa and Mahatna Gandhi. Fear of God and obedience to the authorities' punctualities and decency. So it is very important to a wholesome education. Today the third dimension is

missing almost everywhere. We give the preference to the physical world so that, man became proud and in human activities are happened. So we should fill the missing dimension of the education that means the spiritual education. That molding a good personality and preparing them for the service of humanity. As myself I am longing to show the compassion, sympathy and love of the Lord Jesus Christ through this humble service and all the glory and honor to Him.
